Our ref: PAS/CS/24178  
Your ref: PM 620

Dear Dr. Inskeep,

Dutch Patent Application No. 74.14572  
Your ref: PM 620 - Our file: 24178

I enclose a copy of the instructions which I have sent to our Dutch Associates for the filing of a response to the novelty search report.

You will see that this includes a revised set of process claims and I have left it to them whether to retain all or any of the apparatus claims. I hope that the comments on the Airco and Research Corporation specifications are reasonably accurate.

In the revised claims I would draw your attention to the fact that the -2°C limitation has been relegated to claim 2 and that apart from rearranging the subsidiary claims I have added the subject matter of the new claims 6, 7 and 9 which seem to be features of some importance in the carrying out of the process.

Yours sincerely,

P.A. SMITH
